## **DETAILED ACTION**

### ***Drawings***

The modifications to the drawings were received on 06/20/2007. These modifications are accepted by the Examiner.

In view of the amendment filed on 06/20/2007, the Examiner withdraws drawing objections of the previous Office action.

### ***Claim Objections***

The modifications to the claims were received on 06/20/2007. These modifications are accepted by the Examiner.

In view of the amendment filed on 06/20/2007, the Examiner withdraws claim objections to claims 7-9 and 27-29 of the previous Office action.

### ***Allowable Subject Matter***

Claims 1-4, 6-24 and 26-40 (renumbered 1-38) are allowed.

The following is an examiner's statement of reasons for allowance: claims 1-4, 6-24 and 26-40 (renumbered 1-38) are allowed because the references cited fail to teach, as applicant has, maximum likelihood decoding for obtaining original information by decoding a reproduced signal from a recording medium or a reproduced signal obtained through a transmission medium comprising a first-metric generating for generating a metric of a reproduced signal generated based on a first partial response, the metric being a first metric; a second-metric generating for generating a metric of a reproduced signal generated based on a second partial response, the metric being a second metric; and a maximum likelihood decoding for realizing maximum likelihood decoding by using

the first metric and the second metric, where the second partial response is a differential partial response obtained by calculating a difference between the first partial response and a response generated by shifting the first partial response by 1 channel clock, as the applicant has claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
